HOW WE'LL COMMUNICATE WITH PARENTS

We'll communicate via text to keep you updated on upcoming dates and gatherings. Text "STUDENT" to 55888.

HOW WE'LL COMMUNICATE WITH STUDENTS

We'll communicate with students via GroupMe, a free messaging app available on mobile and desktop (groupme.com). This is where our staff, coaches, and students can talk with each other outside of our gatherings. We'll use it to remind students of upcoming dates, and this is also where students will let their coaches know if they are running late or can't attend a gathering.

Here are some important details to know about GroupMe:

- You must be at least 13 to use GroupMe. If your student is under 13, you'll need to create and monitor their account to allow them to participate.

- Your student's leaders will invite them to a chat including their pod and their Student Director.

- The best way to stay updated is by making sure you have notifications turned on for this group.

If you need help setting up GroupMe, please reach out to your Student Director!
